1. Installation Guide

To install and run this application a user would only have to run the frontend as the backend is hosted online. To run the frontend the commands can be found below.

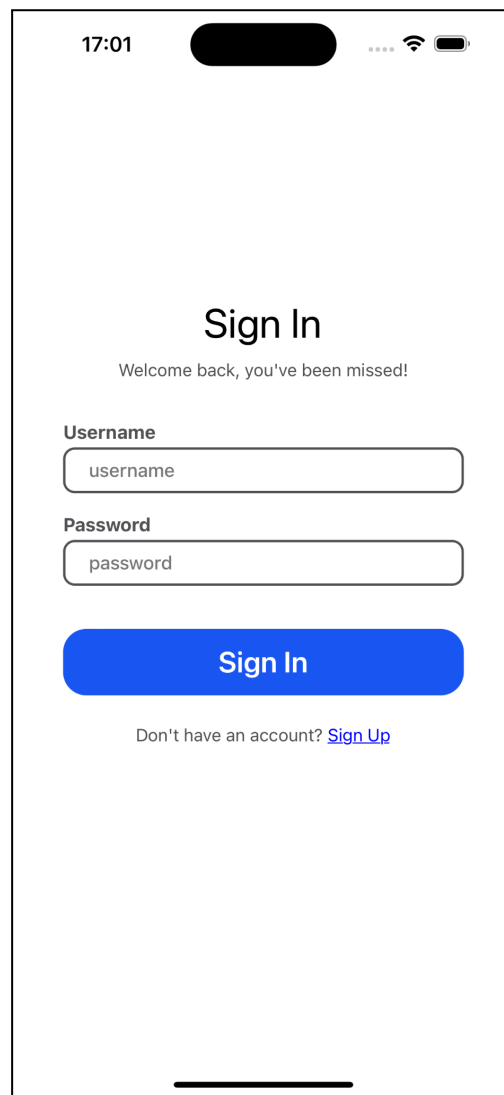

```
cd 2024-ca400-hazekat2-dalye54/src/mobile_react_ntive/forknfind-mobile/  
npm install  
npx expo start --tunnel
```

Once these commands have been run the frontend will begin running and can be connected using the expo application on IOS and Android devices.

2. Unauthenticated Users

2.1 Login Page

When the user opens the app for the first time, they will arrive at the login page and will need to log in with an already-created account. The User will need to input the account information which includes the username and password, see Figure 1.

A mobile application interface for a sign-in page. At the top, the status bar shows the time 17:01, a black pill-shaped notch, and icons for cellular signal, Wi-Fi, and battery. The main content area has a white background. The title 'Sign In' is centered in a large, bold, black font. Below it, a subtitle 'Welcome back, you've been missed!' is centered in a smaller, regular black font. There are two input fields: the first is labeled 'Username' and contains the text 'username'; the second is labeled 'Password' and contains the text 'password'. Both labels are in a bold, black font. Below the input fields is a large, rounded blue button with the text 'Sign In' in white. At the bottom of the form, there is a link that says 'Don't have an account? [Sign Up](#)' in a regular black font. The entire screen is framed by a thin black border, and a black horizontal line at the very bottom represents the home indicator bar.

Fig. 1 - Sign In

2.2 Signup / Create Account Page

The signup page opens when the user wants to create an account on ForkNFind. All users must create an account before accessing any other parts of the application. In the signup page, the user will need to input their username, first name, last name, email and password, see Figure 2.

3. Authenticated Users

3.1 Location Page

The user can view the general map with establishments around them, see Figure 3. Users can choose establishments by moving through the map and selecting establishment icons.

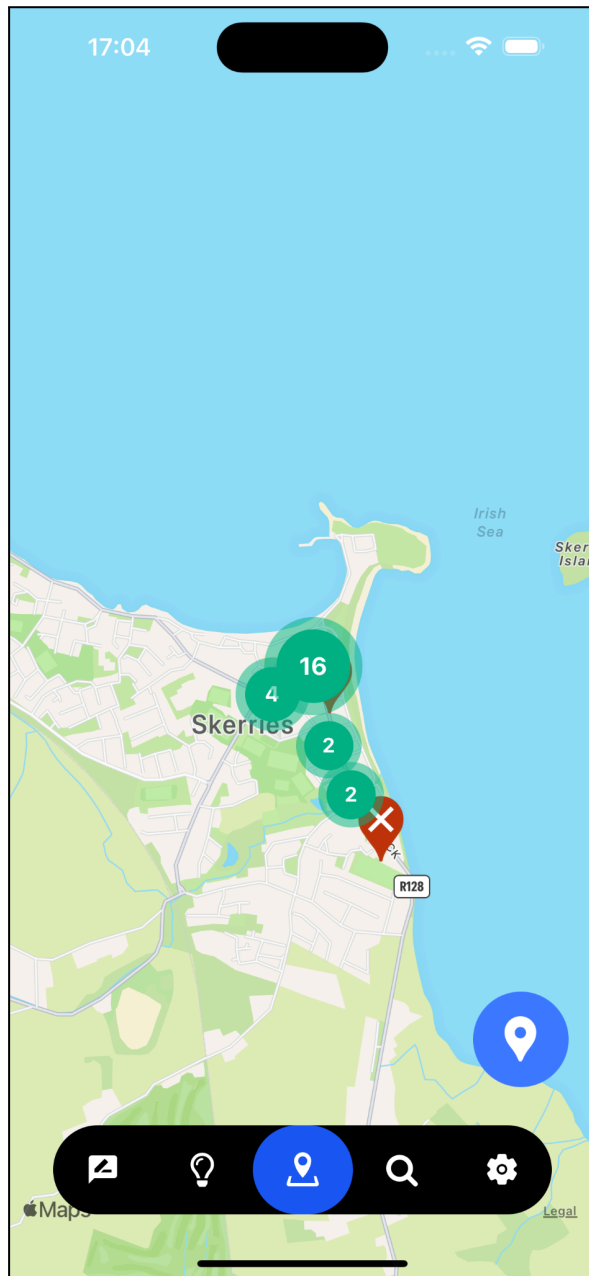

Fig. 3 - Map view

Filters to choose establishments are shown, see Figure 4.

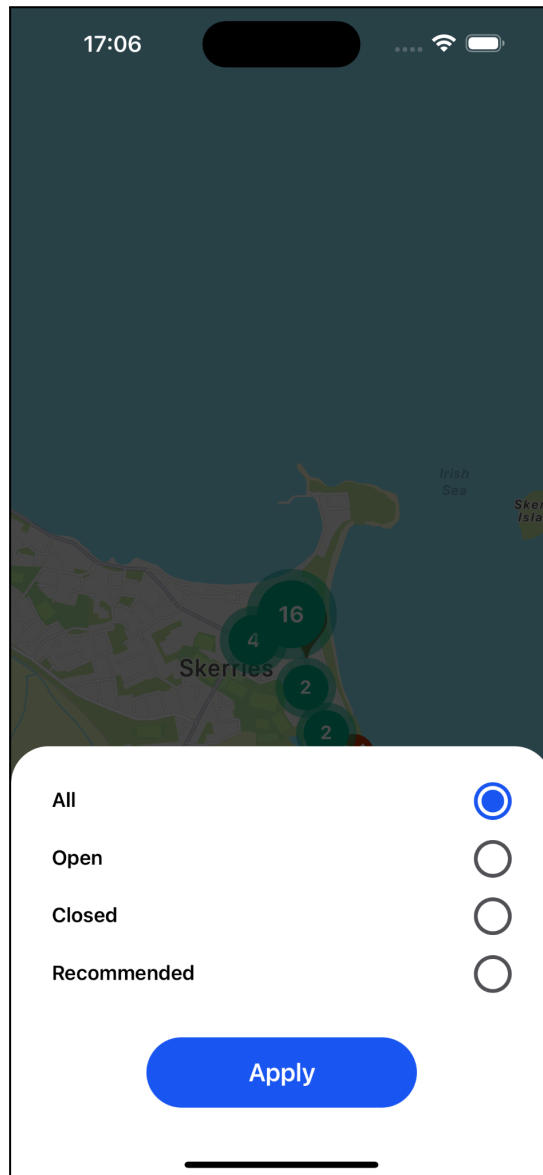

Fig. 4 - Filters

Showing an open establishment by tapping on the green fork icons, see Figure 5. It can be done similarly with closed and recommended establishments.

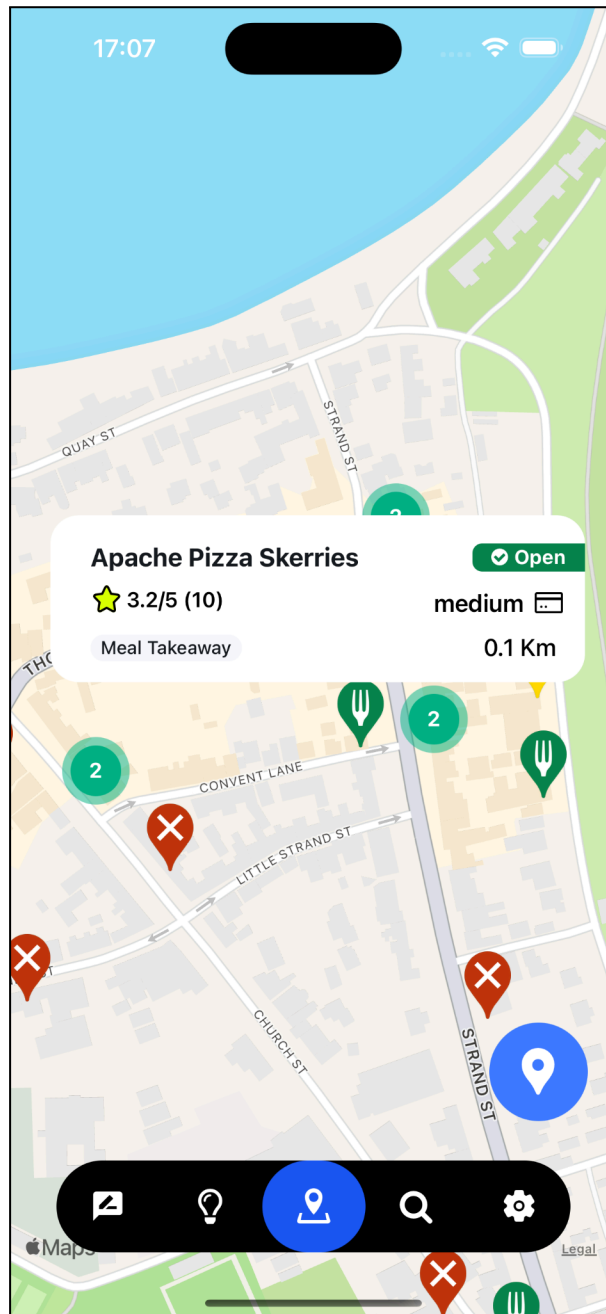

Fig. 5 - Showing establishment

3.2 Search Page

The search page allows the user to search for an establishment (figure 6), they can also apply filters to better locate a specific establishment, see.

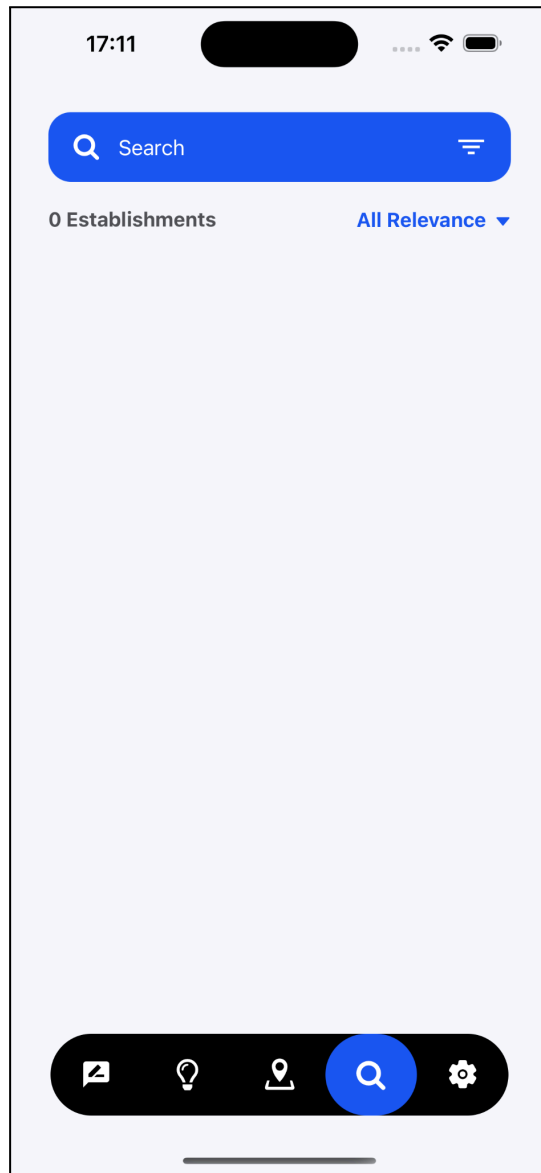

Fig. 6 - Search page

The following Figures 7, 8 and 9 show all the filter options for the search results

Fig. 9 - Continuation of Search filters

Finally, in Figure 10, we can see the results given the search criteria

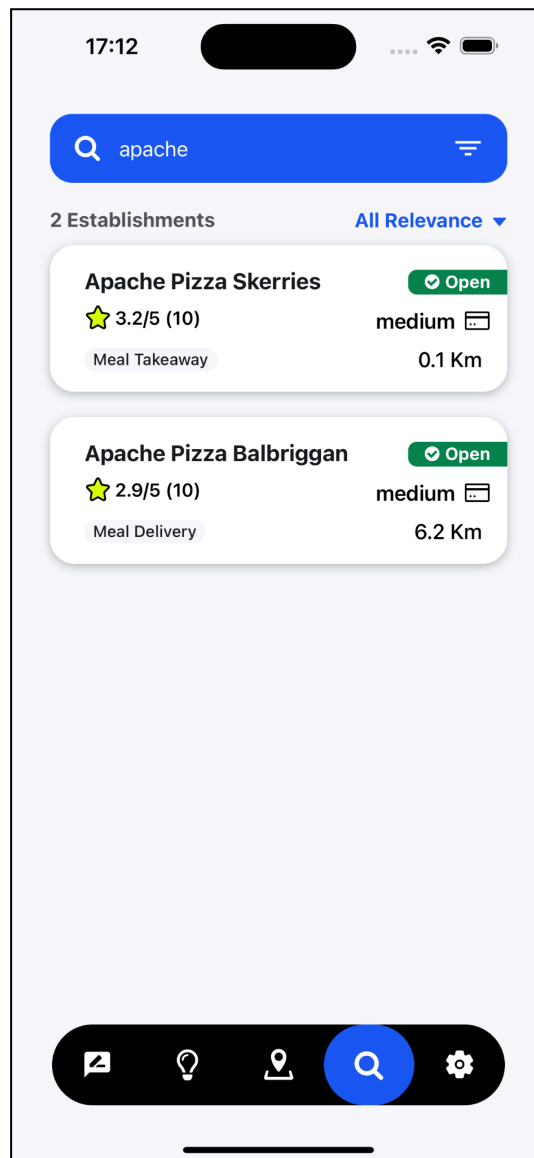

Fig. 10 - Search results

We can further filter the results shown with the options shown below in Figure 11.

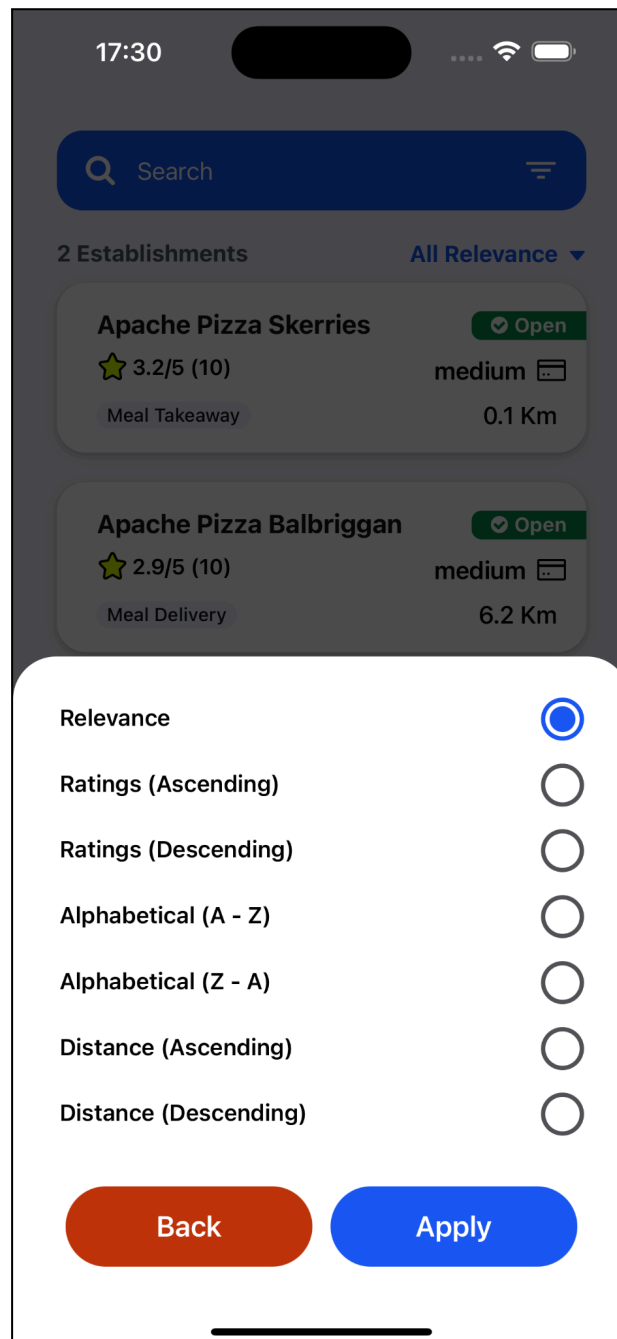

Fig. 11 - Further Filters

3.3 Recommendations Page

The user can click on the recommendations page and be shown any establishments which are recommended by our system, here the recommendations will be open or closed establishments, see Figure 12.

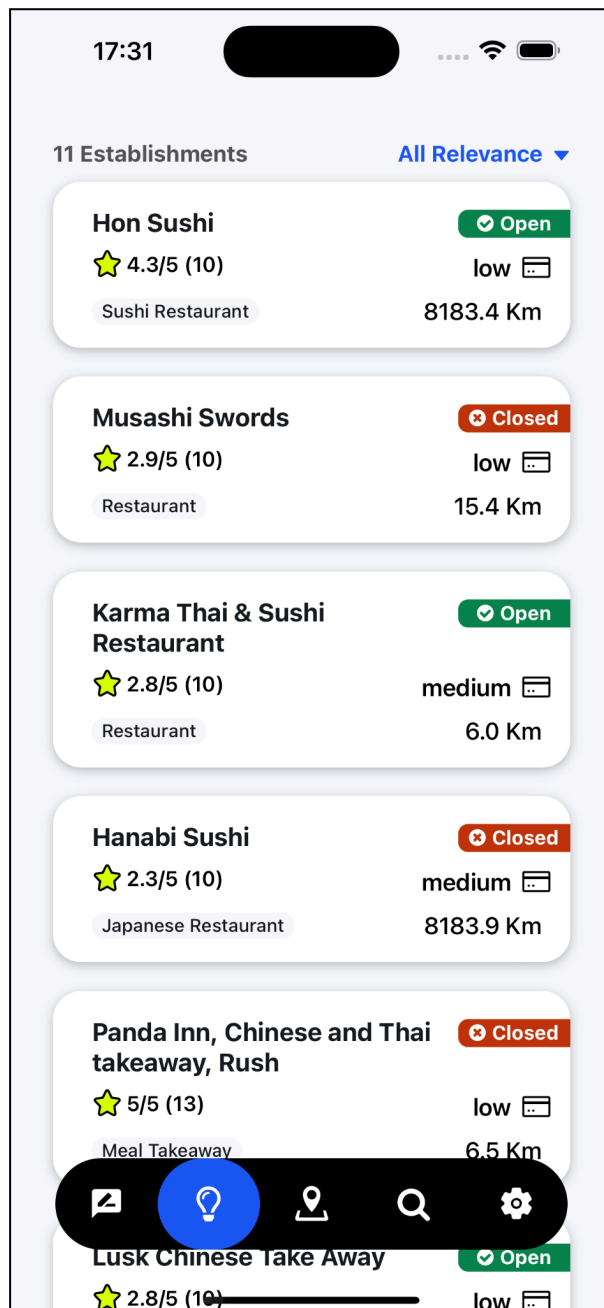

Fig. 12 - Recommendations

Below in Figure 13, we can see the filter options.

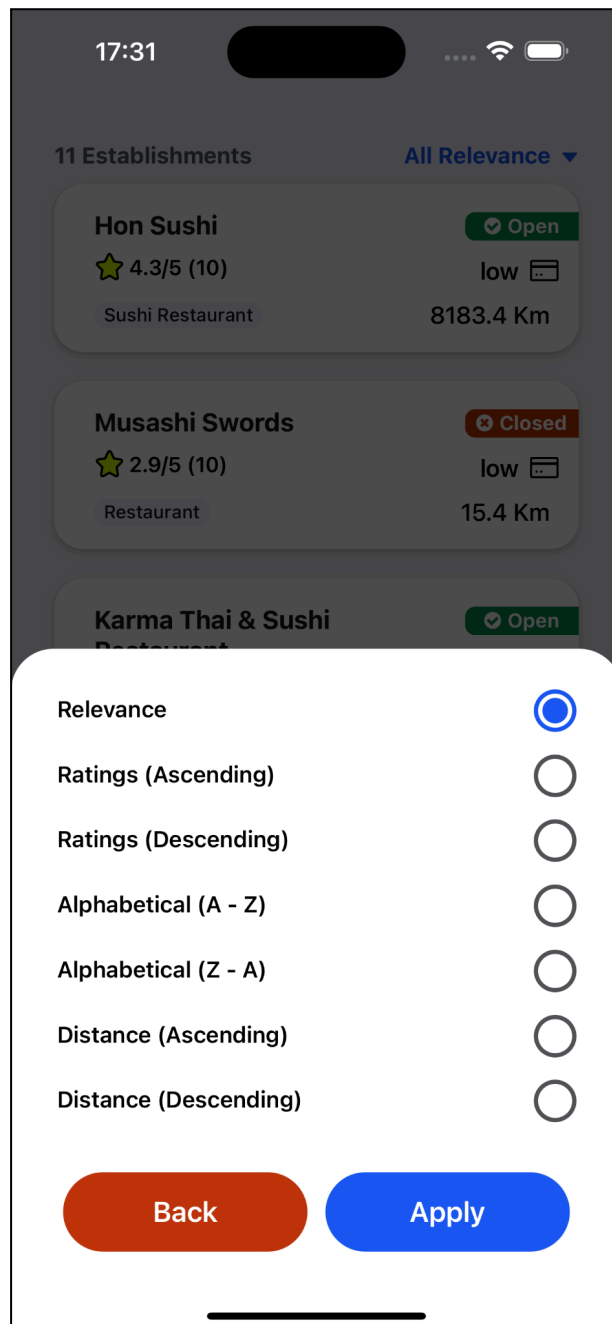

Fig. 13 - Filter options for recommendations page

3.4 Created Reviews Page

The Reviews page shows all written reviews by the currently logged-in user. These reviews show the rating given, text, establishment name, date and sentiment with an emoji icon. See below in Figure 14.

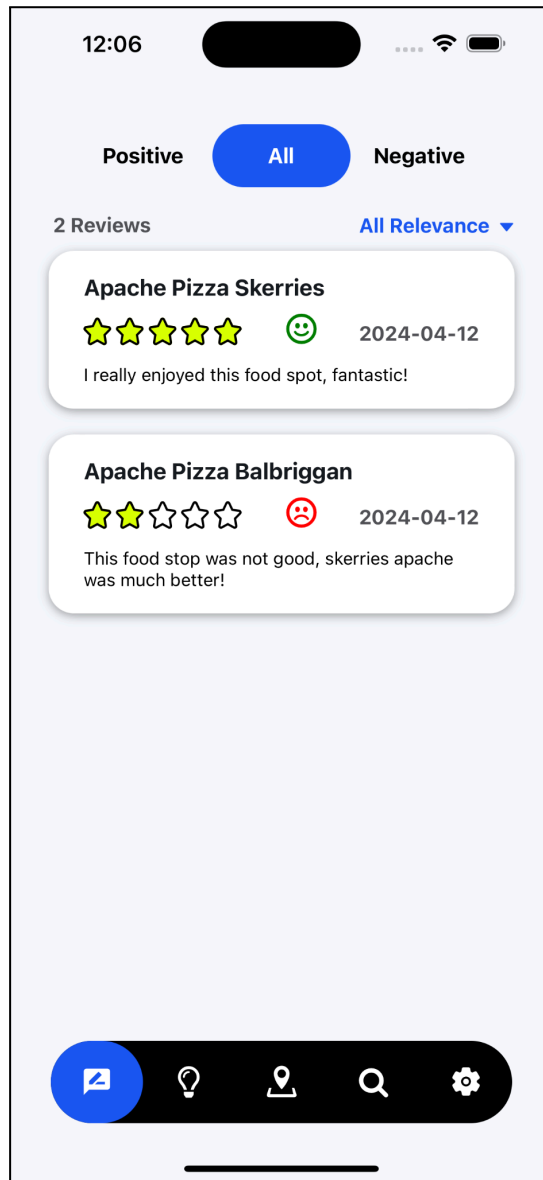

Fig. 14 - Recommendations page with reviews

In Figure 15 we can see that there is the ability to edit the rating and textual review.

The image shows a mobile application interface for editing a review. At the top, the status bar displays the time 12:08, a black pill-shaped notch, and icons for cellular signal, Wi-Fi, and battery. Below the status bar is a back arrow icon. The main heading is "Apache Pizza Skerries" in bold, followed by the address "92 Strand St, Townparks, Skerries, Co. Dublin, K34 V822, Ireland". A section titled "Your Rating" shows five yellow stars. Below this is a section titled "Add detailed Review" with a text input field containing the text "I really enjoyed this food spot, fantastic!". At the bottom of the form is a large blue button labeled "Update".

Fig. 15 - Edits to review

There is a filter option for the sorting of the reviews (Figure 16) and we can choose to group the provided reviews using the sentiment (Figure 17).

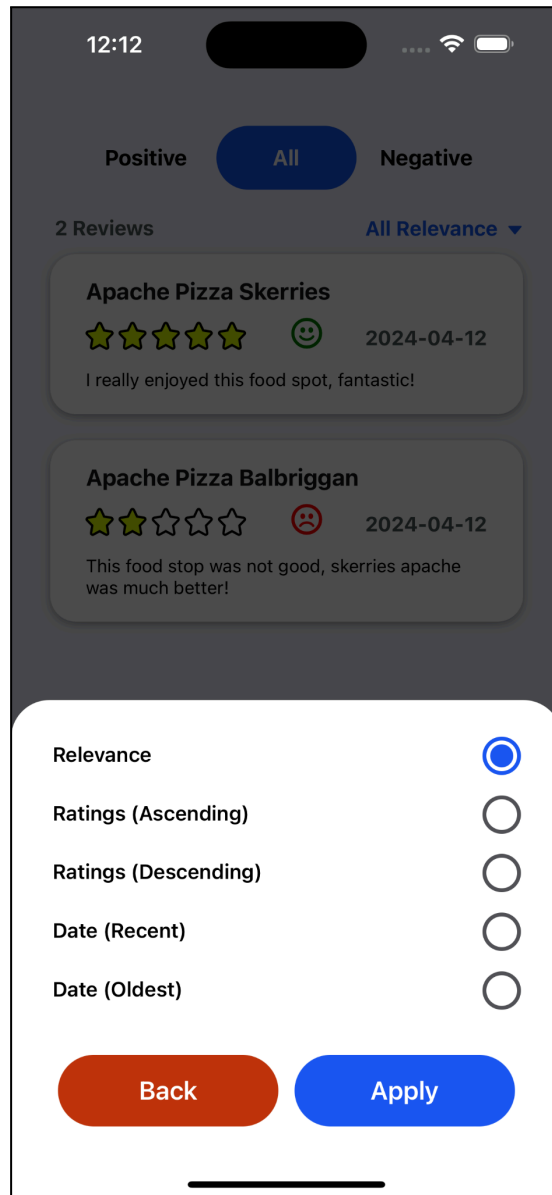

Fig. 16 - Filters

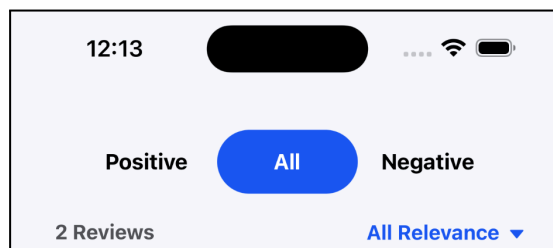

Fig. 17 - Sentiment Filter

3.5 Account Settings Page

In the account settings page, the user can view account information, change password and log out of the account. Shown in Figure 18.

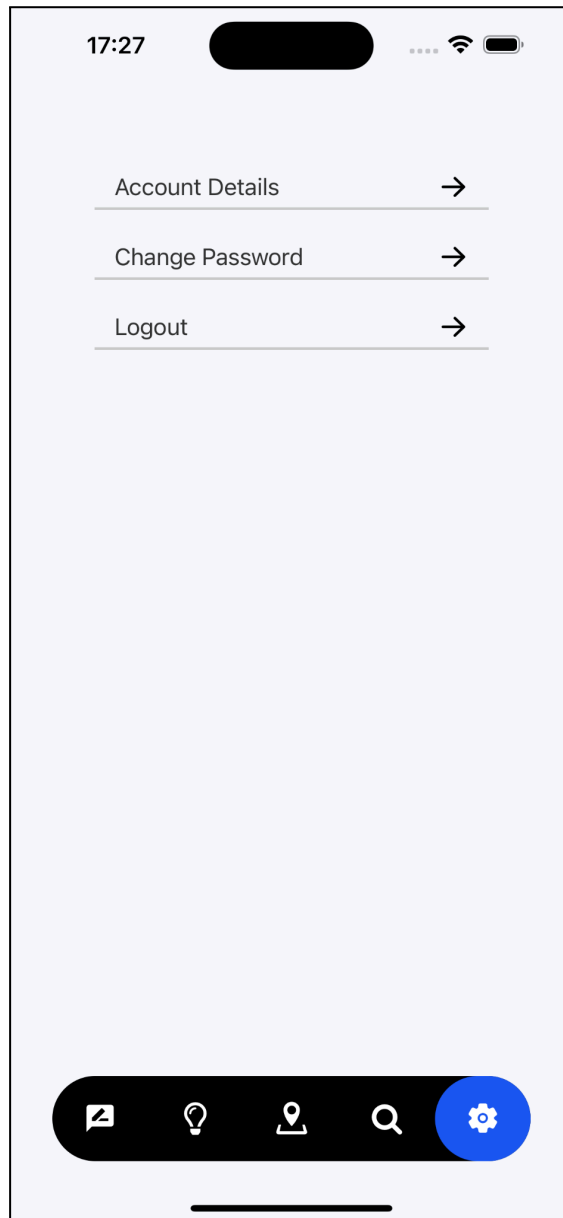

Fig. 18 - Account settings

In Figure 19 we can see the account information such as the first name, last name, username and email.

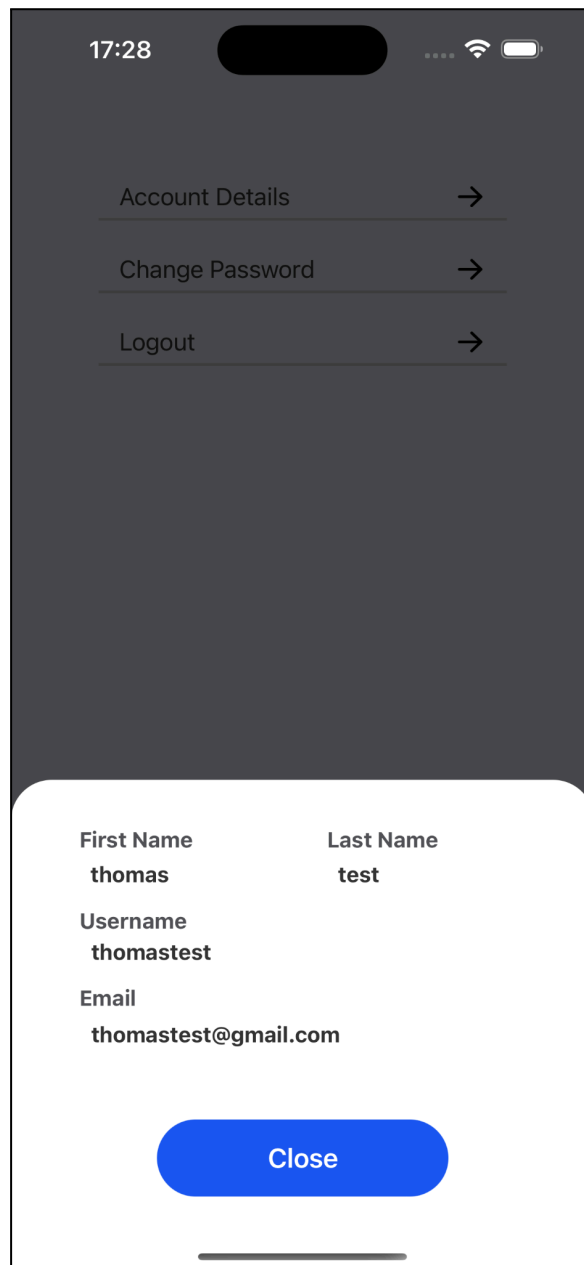

Fig. 19 - Account information details

In Figure 20 we see the option to change our account password by typing in our old password followed by the newly chosen password.

The image shows a mobile application interface for changing a password. At the top, the status bar displays the time 17:28, a black pill-shaped notch, and icons for cellular signal, Wi-Fi, and battery. Below the status bar, there is a dark gray menu with three items: 'Account Details', 'Change Password', and 'Logout', each followed by a right-pointing arrow. The 'Change Password' option is selected. A white modal dialog is displayed in the foreground, containing three text input fields labeled 'Current Password', 'New Password', and 'Retype New Password'. Each field contains placeholder text: 'current password', 'new password', and 'retype new password' respectively. At the bottom of the modal, there are two rounded buttons: a red 'Back' button and a blue 'Apply' button. The entire interface is set against a dark gray background.

Fig. 20 - Account password change

3.6 Viewing Establishment

Users can view individual establishments and look at all the information related to the establishment. Users can see the establishments address, average rating, category, general price, distance to the user, opening and closing hours, similar establishments and establishment reviews. See below Figures 21, 22 and 23

Fig. 21 - Establishment page

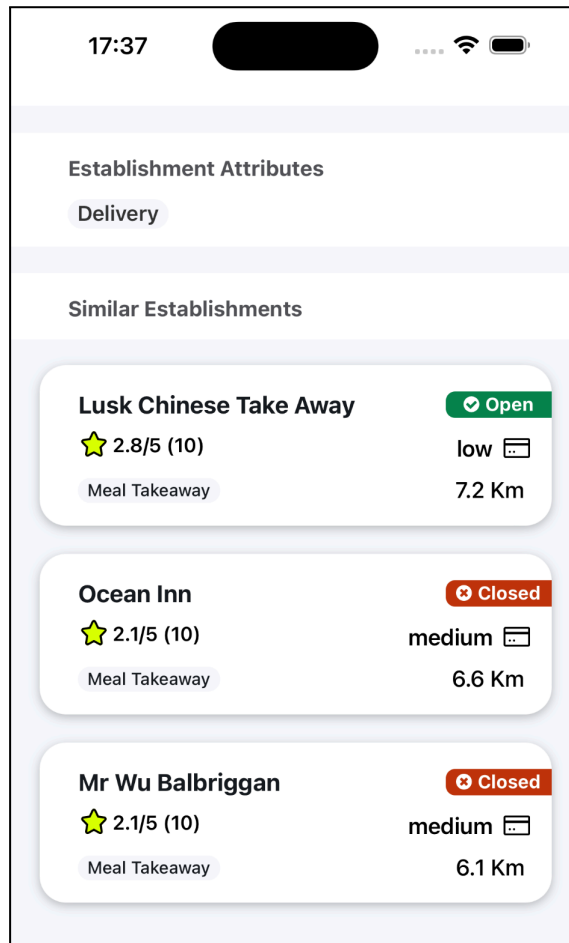

Fig. 22 - Continuation of establishment page

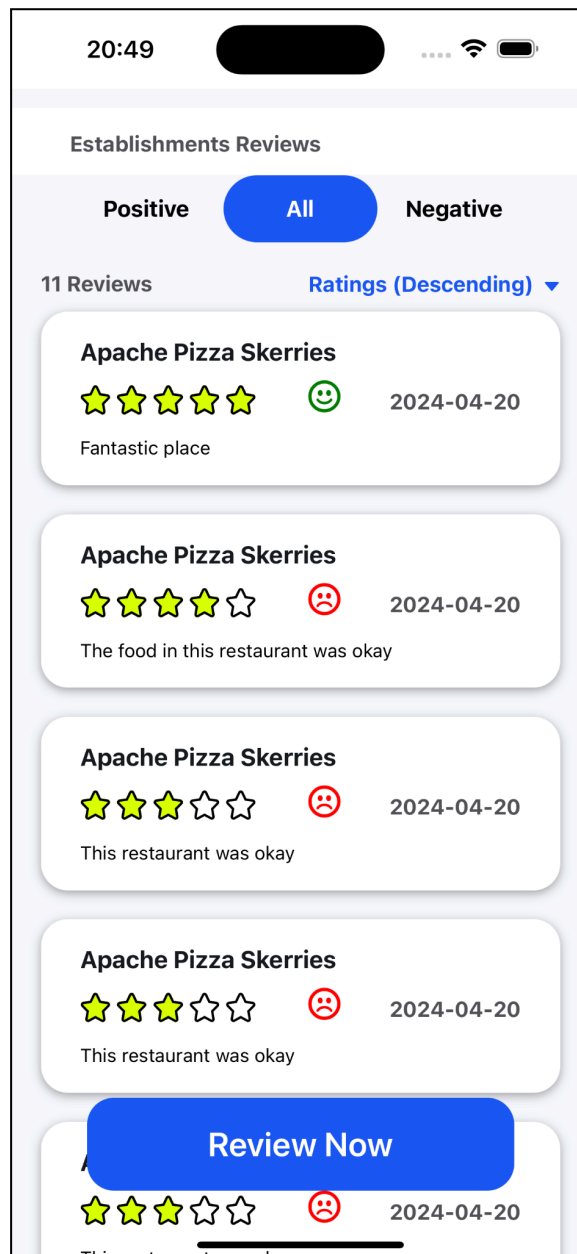

Fig. 23 - Continuation of establishment page

3.6 Creating a Review

The user can create a review for any establishment of their choice, to do this they will need to open an establishment page and click review now, see Figure 24 below.

Fig. 24 - Step to create a review

To create a review the user must input their rating by selecting the number of stars and include a textual description for their review, see Figure 25 below. Reviews as shown above in Figure 15, can be updated

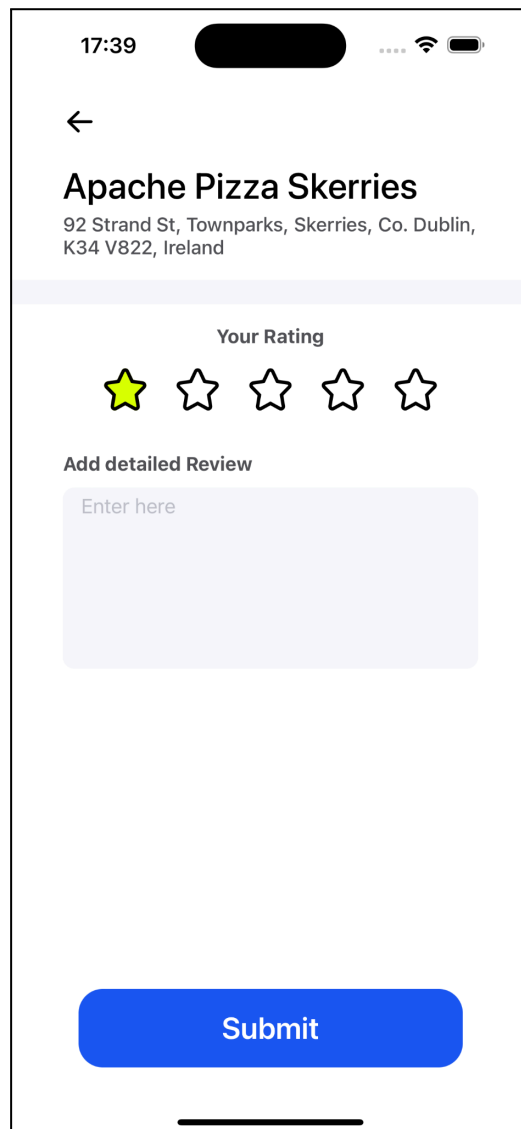

Fig. 25 - Creating a review

3.7 General Navigation

The user can navigate using the navigation bar at the bottom of the screen, see Figure 26. The user can also navigate using back arrows for certain pages such as when viewing an establishment, see Figure 27. Finally, the user may be able to navigate by selecting specific buttons shown in Figures 28 and 29.
